RODEO LOCK
UV PROTECTED CABLE LOCK
PART # CL3M

- Industry first fully water protected lock core (patent pending) with UV protected components
- Durable design, ideal for marine and outdoor use
- Triple seal protection blocks mechanical components from water and environmental contaminants
- Powder coated and electro coated outer surface

- Private label and custom branding options available
- Anti-tangle cable restraint system with built in lock assembly
- Plug interchangeability allows for locks to be keyed to other customer applications, allowing for end user to only need one key for endless number of cable assemblies tied into one key
- Long lasting and low maintenance zinc die cast body
